Introduction

As a dedicated and professional graphic designer, I have created a variety of print, online, and multimedia projects. Through my experience, I have gained skills such as the ability to work as a team and be productive.

As well as studying filmmaking, I have worked as a director, writer, cinematographer, and producer on short films, music videos, and corporate videos. To complete tasks on time, I utilise my initiative, my problem-solving skills, and my creativity. To get this done, I am able to work to a brief, and I am now seeking to further develop my skills in this area.
